CLOUD SPECIALISTS

As Unit4 cloud specialists, we have devised a robust migration model (DATE December 2024) which will ensure that you are safely and securely migrated to Unit4 Cloud by the 31st December 2024.

UNIT4 Retire On Premise ERP

When?

All existing customers must move their on-premise or Azure hosted Unit4 ERP solutions to the Unit4 ERP SaaS solution **by December 31st 2024.**

What?

Unit4 are retiring their on-premise ERP solution, all new customers will be ERP Cloud Customers and existing customers must migrate to the Cloud.

Why Migrate to UNIT4 Cloud?

Why?

SaaS based solutions offer many benefits, from standardisation to industry best practice to regular and controlled software updates.

A move to SaaS means that they can continue to deliver the best possible service to their customers

How?

Vision ERP can manage this process for you.

We will liaise with Unit4 to re-negotiate your licence agreement, undertake effective discovery on your on premise solution and manage your transition to Unit4 Cloud.

We can even provide you with a managed service once you are in the cloud.

DATE

December 2024

WORK WITH AN EXPERIENCED PARTNER

A shift in architecture landscape can sound daunting, but working with an experienced organisation such as Vision ERP will help you achieve a smooth successful cloud migration

Frequently Asked!

Why is Unit4 making this change?

At Unit4, we understand that all organizations, need to become increasingly agile to navigate the ever-changing climate, as well as remain competitive.

With that in mind, and with Cloud being industry standard, we want to develop solutions which ensure that customers have access to our latest innovations as soon as they are released, and which deliver the outcomes that today's forward-thinking organizations need.

When is the End-of-Life date?

Unit4 on-premise solutions for Unit4 ERP, Unit4 Financials by Coda and Unit4 FP&A will no longer be supported or maintained by Unit4, with effect from 31/12/2024.

Is the migration process straightforward?

The process for FY23 remains, so every customer must undertake a Unit4 CMA (Cloud Migration

Assessment) before moving to the Cloud.

Effective 1st January 2024, Unit4 will be launching a more focused way to move to Cloud with our the Success4U offering.

What will happen to customers who decline to move to Cloud?

Unit4 will not offer support and maintenance of its on-premise solution beyond 31/12/2024.

Where will customer data be stored?

Data is stored in one of the Microsoft Azure data centers operated by Unit4 – please. See the service description for data residency options.

How secure will customer data be?

Azure Cloud security and compliance is defined and assessed by Microsoft.

What level of downtime will be required?

The cutover downtime between on-premise to Cloud can take between a couple of hours, to a couple of days depending on the size and the complexity of a customer's organization. Any downtime is planned for as part of the onboarding project to best suit each customer's business and availability. The aim is to limit as much disruption as possible.
